MUHAMMAD AHMED
SOFTWARE ENGINEER

RELEVANT EXPERIENCE

Technical Development Lead - DigiExpo | Remote, UAE
Feb 2025 - Present

- Led a development team to deliver 5+ high-impact projects with visually stunning UI for top real estate developers in Dubai.
- Integrated an open-source time tracking system using Docker, hosted on a subdomain, boosting internal efficiency, task completion, and supervision rates by 30%.
- Deployed AI-powered chatbots into clients websites using ElevenLabsAI, enhancing client interaction and response time.
- Automated internal operations and workflows using n8n, resulting in streamlined processes and well-documented systems.

Tools and Technologies : NextJS , ReactJS , NodeJS , n8n , Chatbot , Elevenlabs , Dockers

Front-End Intern - Rovamo | Remote, Pakistan
Feb 2025 - Apr 2025

- Built high-converting frontends using React.js, Tailwind CSS, and modern UI/UX principles.
- Redesigned agency interfaces, resulting in improved conversion rates and user experience.
- Integrated REST & third-party APIs for dynamic, data-driven interfaces and dashboards.
- Used 3D models, GSAP, and Framer Motion to enhance interactivity and engagement.
- Accelerated development using AI tools like Cursor, Windsurf, and Bolt.

Tools and Technologies : ReactJS , Supabase , Designing , Gsap , Framer

Freelance Project - Jafferi Alliance ↗
December 2024 - Feb 2025

- Documented the entire project requirements and led the front-end development.
- Built a responsive UI using React & Tailwind CSS, ensuring a seamless experience across devices.
- Developed reusable components and efficiently structured code for maintainability.
- Implemented API calls and ensured smooth data exchange with the backend.
- Created and utilized CI/CD workflows for automatic deployment to GitHub.

Tools and Technologies : ReactJS , Tailwind , Javascript , Github , CI/CD

Front-End Intern | ReactJS - MEAN3
July 2024 - Sep 2024

- Migrated complex WordPress front-end designs to ReactJS, enhancing user experience and performance.
- Gained expertise in component structure, code reusability, and clean coding techniques.
- Integrated projects with CI/CD pipelines to automate deployment on GitHub Pages.
- Designed and developed front-end interfaces using WordPress.

Tools and Technologies : ReactJS , Shopify , Wordpress , Javascript , Github , Tailwind, CI/CD

EDUCATION

Muhammad Ali Jinnah University - MAJU
Sept 2022 - Sep 2026

Bachelors in Computer Science
- CGPA 3.0
- Member of the ACM Coding Society and an active participant in hackathons.

Whales College - A levels
May 2020 - May 2022

Cambridge Board IGCSE - Computer Science
- Our course was comprehensive, covered programming fundamentals to data structures and algorithms.

CERTIFICATIONS

1. **7 Days Web-Development Bootcamp (Google Developer Community)** ↗
2. **National Freelance 3-Months Traineeship - Technical Domain** ↗
3. **Developing Front-End Apps with React (Coursera)** ↗
4. **Git and Github essentials (Coursera)** ↗
5. **3 Days UI/UX Designing Workshop (MAJU ACM)** ↗

SKILLS

- **Languages:** JavaScript , C++ , Typescript
- **Technologies:** Next.js ,Node.js, React.js, MySQL, MongoDB, Docker, Git, WordPress, Shopify
- **Other:** Technical writing, Agile SD, Presentation & Public Speaking
